

## FedEx Instructions to Ship Samples

How do I schedule a one-time FedEx pickup with a prepaid label?

### **OPTION 1**

- Call customer service at 1.800.GoFedEx or 1.800.463.3339. Provide the tracking number from the label and select Express Pickup.
- Ensure the pickup will be completed before the cut-off time for Priority Overnight shipping (cut-off time varies, depending on location).
- We highly recommend recording and saving the tracking number.

### **OPTION 2**

- Drop off your package at one of thousands of convenient locations at [www.fedex.com](http://www.fedex.com).
  - We recommend dropping off at a FedEx Shipping Center, as opposed to a third party location, such as Walgreens. Third party locations do not have reliable pickups from FedEx.
- Ensure you drop off your package before the cut-off time for Priority Overnight shipping.
  - Cut-off times vary, depending on the specific location.
- We highly recommend recording and saving the tracking number.

**NOTE:** If you would like to set up recurring pickups, please reach out to your CirrusDx Distributor.
